DETAILED ACTION

Election/Restrictions

An attempt for provisional restriction requirement was made on Tuesday, February 12, 2008 with Applicant's Attorney. No communication was established.

Restriction to one of the following inventions is required under 35 USC 121:

- I. Claims 1-21, drawn to a method comprising a first frame converting into a second frame with column and row parity, classified in class 714, subclass 776.
- II. Claims 22-53, drawn to an apparatus comprising a first mapper, a synchronizer, an encoder and a second mapper, classified in class 714, subclass 779.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, a first frame converting into a second frame with column and row parity and Group II, an apparatus comprising a first mapper, a synchronizer, an encoder and a second mapper are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the claims of Group I do not require the limitations a apparatus comprising a first mapper, a synchronizer, an encoder and a second mapper. The subcombination has separate utility such as in a single networked environment.

Application/Control Number: 10/660,404 Page 3

Art Unit: 2112

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Application/Control Number: 10/660,404

Art Unit: 2112

Conclusion

Any inquiries concerning this communication should be directed to the examiner,

Mujtaba Chaudry who may be reached at 571-272-3817. The examiner may normally be reached

Mon – Thur 6:30 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, please contact the examiner's supervisor, Jacques Louis-Jacques at (571) 272-6962.
